

IV6-1122WR POLE MOUNT ACCESSORY BRACKET *(Available from Polar Focus)*

Outdoor Pan & Tilt Pole Mount System for I SERIES Modular Vertical Array

- Mount array of three or four IV6-1122WR onto conventional lighting poles
- Supports all standard IV6 cabinet types and inter-cabinet splay angles
- The only off-the-shelf outdoor Vertical Array pole mounting kit available anywhere.
- Static wind rating of 129 mph (207 kph)
- Pan and tilt array aiming supported
- Locking clamps prevent motion after installation
- Entire loudspeaker and yoke assembly are assembled on the ground and lifted into place in one piece using convenient built-in lift points
- For larger IV6 arrays, contact Polar Focus. Semi-custom or custom versions of this mount can be manufactured for your application
- Polar Focus can provide PE stamped drawings for all 50 US states and Canada
